All Welsh fire authorities are required to make improvements every year.

We will continue to make Mid and West Wales safe.

The Community Risk Management Plan is our plan to meet the needs of the community.

- 1 ✓
- 2 ✓
- 3 ✓
- 4 ✓
- 5 ✓

We have eight goals for improving the community.

We call them **Improvement and Well Being Objectives.**

Improvement and Well-Being

Objective One

We want to change the culture of our organisation.

We will follow the guidance of our Cultural Audit survey.

We will put improvements from the staff helpline into practice.

We will introduce new training opportunities for staff.

Improvement and Well-Being

Objective Two

We want to improve our On-Call Duty System

We will identify necessary changes.

We will get our On-Call staff involved in research.

We will do research to improve working practices.

We will look into changes to understand their effectiveness.

Improvement and Well-Being

Objective Three

We want to make changes in our communities.

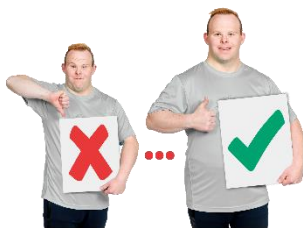

We will review risks to make changes.

We will review the locations of our fire stations.

We will review our specialist skills.

We will make improvements in all areas.

Improvement and Well-Being

Objective Four

We want to change the way we respond to emergencies.

We will develop new ways to meet the changing demands.

We will review our emergency cover arrangements.

We will review how we staff our fire stations.

Improvement and Well-Being

Objective Five

We want to support the most vulnerable in our communities.

We will change how we respond to automatic fire alarms.

We will provide safety interventions for children and young people

We will deliver local intervention activities to promote awareness of responsibilities.

We will make changes to meet new demands.

Improvement and Well-Being

Objective Six

We want to understand what our communities expect of us.

We will ask our communities what's important to them.

We will identify new approaches to community engagement.

We will design new strategies to engage the community.

We will put our new strategies into practice.

Improvement and Well-Being

Objective Seven

We want to reach net zero emissions by 2030.

To do this we need to make a Net Zero Road Map.

We will use ultraviolet-treated water to fight fires.

We will look into alternative fuel sources for our vehicles.

We will work with suppliers to make supply chains more environmentally friendly.

Improvement and Well-Being

Objective Eight

We want to make sure we have the best vehicles and equipment.

We will look at the vehicles we give to firefighters.

We will make sure our equipment can effectively manage contamination.

We will make sure our equipment is effective for emergencies.
