

Version – May 2021 (Inclusion of Socio-Economic Duty requirements)

For the purposes of this document, the word 'proposal' can refer to any policies, strategies, procedures, reviews, projects and plans. With regards to the requirements of the Socio-Economic Duty implemented by the Welsh Government from 31 March 2021, strategic decision-making processes should also be assessed in consideration of any potential socio-economic impacts.

A separate and specific Impact Assessment should be undertaken with regards to the requirements of Welsh Language.

Name of Policy / Procedure / Project / Piece of Equipment / Proposal Community Risk Management Plan 2040 Version 2	
Directorate/Department/Team Community Risk Management Plan	
Date of screening April 2025	Who are the main beneficiaries/users? <i>i.e. staff, community, groups, businesses etc.</i> Our Community Risk Management Plan is for everyone who lives, works, and visits the six counties covered by Mid and West Wales Fire and Rescue Service.
Aims, objectives and outcomes <i>What will the proposal achieve? Attach any relevant links/documentation</i> Our CRMP highlights how we intend on addressing the risks, threats and challenges facing our communities and how we propose to meet and reduce them, whilst ensuring our assets and resources are used successfully, providing the best possible service to the communities we serve. Using data to identify any perceived risks and challenges in our communities will help us to tailor our services appropriately and reduce those risks through the services we deliver, by providing greater focus on how we deliver our prevention, protection, and response functions. This work will also enable us to target our resources to prevent incidents from

EQUALITY IMPACT ASSESSMENT

happening, whilst ensuring that our resources are in the right locations to best protect the communities we serve in the event of an emergency.

We have identified 8 Improvement and Well-being Objectives which have been developed through a series of workshops with staff, Elected Members and Representative Bodies. We believe these areas will enable improvements to deliver a more efficient and effective service to the communities of mid and west Wales.

Each Improvement and Well-being Objective has specific actions which have been developed, to assist in their delivery throughout the CRMP, for example within 1-2 years (short term), 3-7 years (medium term), or 7+years (long term).

The delivery of the actions and Improvement and Well-being Objectives will use an evidence-based approach, that will create a suite of options, and deliver action-led outcomes, which will ensure that the CRMP is well-founded, flexible, and effective. The structured 17-year CRMP ensures a phased approach to delivery, covering the immediate, medium, and long-term needs of the Service and the communities we serve, building the foundation for an effective Fire and Rescue Service.

We are confident that this approach will ensure the successful delivery of the CRMP and assist in the achievement of the Service's vision, to deliver the best possible Fire and Rescue Service for the communities of mid and west Wales.

An Equality Impact Assessment helps us promote equal opportunities and positive relations between people as well as prevent unlawful discrimination. It is a tool that will help with your research when you are making key decisions, developing a project, policy, procedure or initiative that affects our staff or communities. The assessment will also serve to act as an audit of the decisions you are proposing.

Assessing for impact/risk is a legal requirement. We must consider how the decisions we make impact on people and consider their protected characteristics namely, age, disability gender-reassignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex or sexual orientation. As part of Strategic decision-making processes, any potential impacts due to Socio-economic duty must also be considered.

Screening for Impact

Please consider each of the aspects specified below and note if your proposal has a positive or negative impact then choose if the risk of the impact is **low**, **medium** or **high**.

Level of Risk	
Low	Minimal or minor impact on a protected characteristic. Adverse impact unlikely.
Medium	Significant impact on a protected characteristic. It will impact on the community, staff or business process and needs to be explored further. Requires analysis consideration of both qualitative and quantitative information. Adverse impact fairly likely.
High	Major or critical impact on a protected characteristic, serious impact on the community, staff or business process which would have a big impact on service quality, staff confidence and reputation with the community. Requires analysis consideration of both qualitative and quantitative information.

Protected Characteristics	Positive or Negative Impact	Level of Risk high, medium, low	Please explain your assessment	Evidence of good practice
Age (younger, older or particular age group)	Positive	Low	<p>Our CRMP highlights how we intend on addressing the risks, threats and challenges facing our communities and how we propose to meet and reduce them, whilst ensuring our assets and resources are used successfully, providing the best possible service to the communities we serve.</p> <p>We have identified 8 Improvement and Well-being Objectives which have been developed through a series of workshops with staff, Elected Members and</p>	<p>Using data to identify any perceived risk and challenges in our communities will help us to tailor our services appropriately and reduce those risks through the services we deliver, by providing greater focus on how we deliver prevention, protection, and response functions. 		<p>to meet and reduce them, whilst ensuring our assets and resources are used successfully, providing the best possible service to the communities we serve.</p> <p>We have identified 8 Improvement and Well-being Objectives which have been developed through a series of workshops with staff, Elected Members and Representative Bodies. We believe these areas will enable improvements to deliver a more efficient and effective service to the communities of mid and west Wales.</p> <p>It is intended that the 8 Improvement and Well-being Objectives listed within the plan will have a positive impact on the communities we serve. The service welcomes views from all during the production of the CRMP.</p> <p>The Community Risk Management Plan will not have an adverse impact on this characteristic; it is intended that the 8 Improvement and Well-being Objectives listed within the draft CRMP will have a positive impact on the communities we serve.</p>	<p>the demand for our services and the resources we require to ensure we remain effective and efficient.</p> <p>The delivery of the actions and Improvement and Well-being Objectives will use an evidence-based approach, that will create a suit of options, and deliver action led outcomes, which will ensure that the CRMP is well founded, flexible and effective. The structured 17-year CRMP ensures a phased approach to delivery, covering the immediate, medium-, and long-term needs of the service and the communities we serve, building the foundation for an effective fire and rescue service.</p> <p>Our Community Risk Management Plan is available in several formats, which includes electronically, hard copies and Easy Read. The Plan can be accessed via our external website, and for internal staff, through our insight page.</p>

EQUALITY IMPACT ASSESSMENT

				<p>A 10-week consultation and engagement between January 2025 and March 2025 provided all our stakeholders and the community the opportunity to provide their views on each of the Improvement and Well-being Objectives, detailed within the Community Risk Management Plan.</p> <p>The Service will distribute the draft Community Risk management plan widely to capture as wide a range of views as possible. We will monitor the effectiveness of our distribution methods in terms of the makeup of respondents, which will inform future work in this area.</p> <p>The 10-week consultation and engagement indicated that 86% of respondents were heterosexual, 0.4% were gay, 0.9% were bisexual, 1.8% were lesbian, 0% stated other and 10.1% preferred not to say. We will, therefore, continue to seek out a wide range of views</p>

				when developing our CRMP to ensure inclusion and diversity across communities.
If negative and medium or negative and high risk is identified for any protected characteristic, a full assessment will be required.				

Screening for Socio-Economic Impact as part of Strategic Decision-Making

Please consider socio-economic disadvantage and note if your proposal has a positive or negative impact then choose if the risk of the impact is **low**, **medium** or **high**.

	Positive or Negative Impact	Level of Risk high, medium, low	Please explain your assessment	Evidence of good practice
Socio-economic disadvantage (How might this impact on those who are socio economically deprived?)	Positive	Low	In previous years, the Service has produced two Plans, namely, a five-year Strategic Plan outlining the Service's long-term Commitments and an Annual Business Improvement Plan outlining the Service's Improvement and Well-being Objectives. The communities we serve are at the heart of everything we do and recognising the need to plan for the longer-term we decided to revise our planning arrangements, the outcome of which was the introduction of a Community Risk Management Plan (CRMP) 2040.	The Service will distribute the Community Risk Management Plan widely in an attempt to capture as wide a range of views as possible. Ways in which the plan will be distributed are, on our social media pages, our internal intranet, our website and we have also worked with external

			<p>Our CRMP highlights how we intend on addressing the risks, threats and challenges facing our communities and how we propose to meet and reduce them, whilst ensuring our assets and resources are used successfully, providing the best possible service to the communities we serve.</p> <p>Using data to identify any perceived risks and challenges in our communities will help us to tailor our services appropriately and reduce those risks through the services we deliver, by providing greater focus on how we deliver our prevention, protection, and response functions. This work will also enable us to target our resources to prevent incidents from happening, whilst ensuring that our resources are in the right locations to best protect the communities we serve in the event of an emergency.</p> <p>Furthermore, effective monitoring and evaluation arrangements will enable us to plan our future activity, improving public safety and reducing the severity of incidents we attend. We will also</p>	<p>companies such as Wales online and route media to promote the plan as far and wide as possible. We will monitor the effectiveness of our distribution methods.</p> <p>A 10-week consultation and engagement between January 2025 and March 2025 provided all our stakeholders and community with an opportunity to provide their views on each of the Improvement and Well-being Objectives detailed within the Plan.</p>
