

Safe Burning Advice

The Heather and Grass etc. Burning (Wales) Regulations 2008

Are you permitted to burn?

Is your farm covered by a management agreement? Some programmes will not allow for any type of burning. Breaching these rules may affect any payments you receive.

The Burning Season

Upland areas - 1st October to 31st March.

Any other area - 1st November to 15th March.

You are not permitted to burn between sunset and sunrise.

Area

Burn no more than 10 hectares in any single controlled burn. If your land lies on a slope of more than 45 degrees, then burn no more than 0.5 hectares in any single controlled burn.

Controlled Burn

The safest way to conduct a controlled burn is to have three or more people involved.

- An active fire front should be no more than 5

to 10m per person depending on conditions.

If you want to deviate from these regulations – you may need a licence!

This is issued by the Welsh Government Divisional Office.

Burning Plan

All burning of land must be supported by a Burning Plan. Assistance in preparing a burning plan is available from your local Fire Service.

If you have informed your local Fire Service and neighbouring land owners?

Confirm your intent to burn with a time, date and location. Preferably with a postcode or grid reference on:
